

22 April 1959

Dear Dan:

Subject: SP-1920, J-75

Further to our discussion here today, we do agree that we can handle this program on the price redetermination basis.

We will appreciate the early issuance of a brief Letter Contract, containing the progress payment provision. We will, at the close of the April accounting period which date is May 3, remove the J-75 costs from 1918.

Very truly yours,

*Bob*
